BECOME A PARTNER

OF THE INTERNATIONAL TEAM STAGE X!

Chip- tuning

Working with **ecology** systems

DON'T LOSE
CLIENTS AND MONEY!

Provide your car service with modern capabilities for **reprogramming ECUs and automatic transmissions**

If you do not provide ECU and automatic transmission reprogramming services yet, you are missing out on an opportunity to earn more and attract new clients. **We are ready to help you organize this line of business**

We represent an existing network of car services, **specialize in solving problems with AdBlue, DPF, EGR, Cat and other, firmware recording Stage 1/2** – we have significant experience and knowledge in this area

WHAT WE OFFER:

Selecting the necessary equipment

We will select the best equipment for you in accordance with your budget and scope of work

Training and support

We will teach you how to use the equipment, provide technical support and assistance at the first stages of work

File service

You will get access to our file service for flashing

To start reprogramming cars, depending on the volume of cars and financial capabilities, you need to purchase the following equipment

BASIC SET OF EQUIPMENT:

1 – LAPTOP
Average performance, with SSD, not gaming

Kess 5.017/ktag 7.020
Online 2.80 + 12 Gifts
US $56.34 US $56.34
Choice

2 – KESS V2
Adapter for working via OBD, support for cars from 2000 to ~2016. Price ~40€

US $70
2 sold

3 – SM2 PRO
Universal adapter for working via OBD and direct connection to ECU. Price ~70€

V1.20/1.21 With 69 Modules
US $10.92 US $10.92
Choice

4 – PCM FLASH
Flash drive-key to the program. Price ~10€

Total cost: ~120€ + laptop
All this can be ordered on AliExpress from warehouses in Europe, delivery takes about 7 days

This set is enough to start work and cover up **to 70% of the European automotive industry**

ADVANCED FEATURES:

The next most important thing to have in your arsenal is foxFlash. **This device supports all types of transport - cars, trucks, tractors, motorcycles**

Supports OBD, Bench, Boot, and block cloning

Price ~600€. Shipping to Europe free, takes about a week
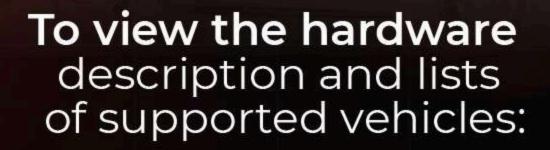

PROFESSIONAL EQUIPMENT:

For maximum coverage and efficiency, we recommend equipment from world leaders in the field of reprogramming: Autotuner, Flex Magicmotorsport and Kess V3

Our personal recommendation is to have them all, but if you choose one, it is **Autotuner.** Works fast, stable, without subscription fee and free lifetime updates

The price of the Master version is around 5500€.

Significantly saves work time and covers ~90% of cars, which allows flashing 5-10 cars per day

To view the hardware
description and lists of supported vehicles:

GO TO THE WEBSITE

stagex-performance.eu

Important: You purchase all equipment yourself and directly, without our markups and commissions

READY TO GET STARTED?

After receiving the equipment, please contact us

We will help you install the software, conduct an introductory course, and help you with your first firmware update

COST OF TRAINING:

Introductory course and support during the first machine reflashing - FREE

You pay **only for the file**

↘ To order files register

portal.stagex-performance.eu

If you need additional help, you can purchase a support package for reflashing 20, 50 or 100 vehicles
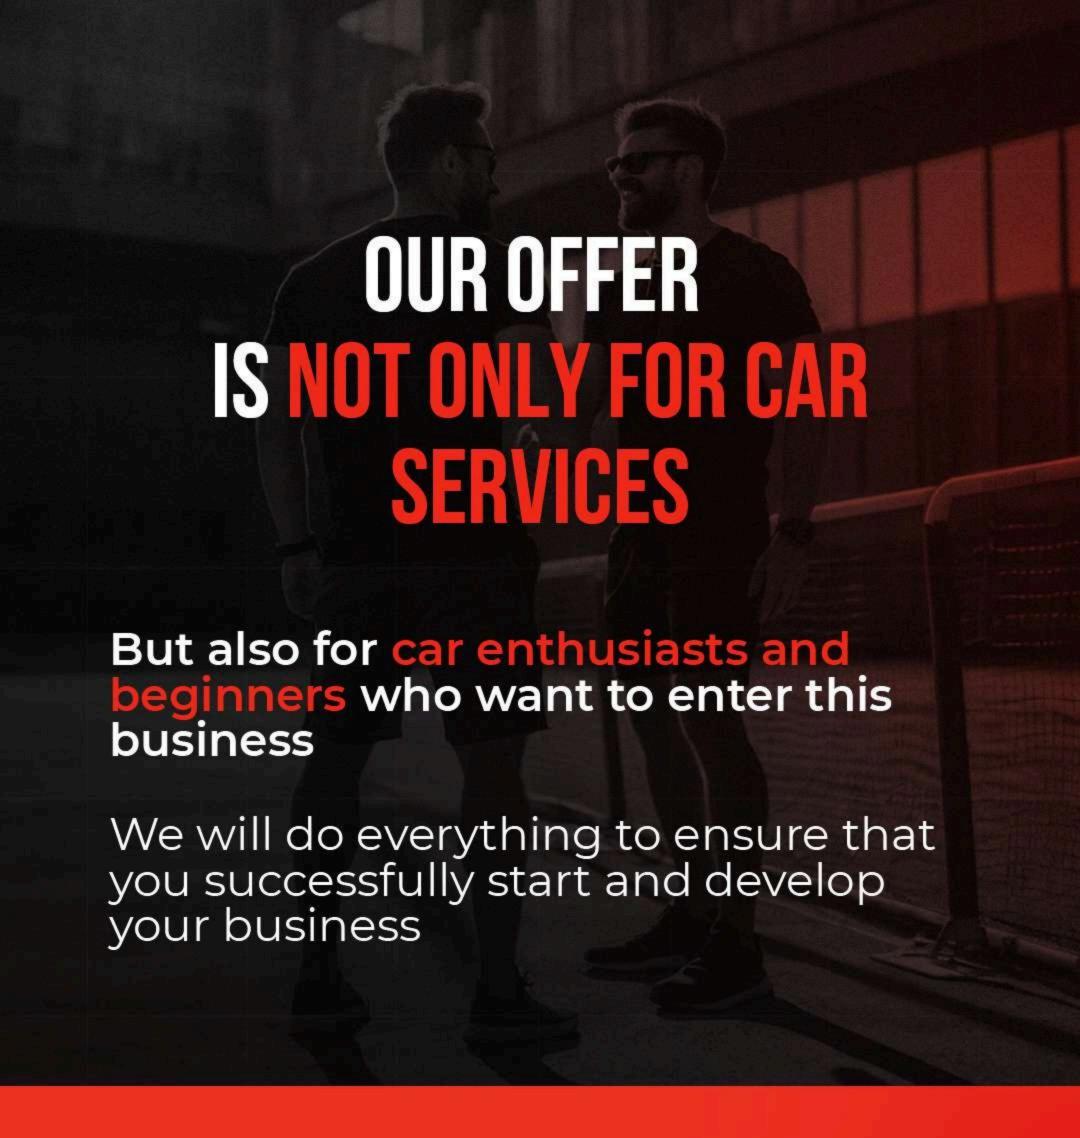

Usually, our clients need support for 20 cars to become completely independent in this process

MARKETING
SUPPORT

If necessary, we will help you with the organization of the client flow – we will teach you how to find clients, help you create a website and manage social networks, as well as launch advertising campaigns

We have already tested advertising formats **that have proven their effectiveness and are ready to use**

You will also receive customers from our general advertisement

OUR OFFER
IS NOT ONLY FOR CAR SERVICES

But also for car enthusiasts and beginners who want to enter this business

We will do everything to ensure that you successfully start and develop your business
